

Runner represents the most popular, tested and reliable model of lawn mower. The machine is totally automatic and doesn't need any kind of intervention.

Equipped with lithium battery it can manage areas from 1900 to 3000 sqm. Runner XE with a more innovative electronic system guarantees to cover an area of up to 2600 sqm.

Runner XK with its self programming function it's able to recognize when a lawn area is already cut optimizing the cut and considering the grass grown it covers an area of 3000 sqm.

The sinusoidal transmission system guarantees the robot to work in full security by ensuring an immediate stop in the event of loss of signal or power failure.

MODEL	CODE	BATTERY	CUT	S.M.	SLOPE
Runner X	20-2010-05	2x2,3Amp - Lithium	29 cm	1.500 sqm	45%
Automatic recharge-blade modulation-rain sensor					
Runner X	20-2010-11	1x6Amp - Lithium	29 cm	1.900 sqm	45%
Automatic recharge-blade modulation-rain sensor					
Runner XE	20-2021-10	1x6Amp - Lithium	29 cm	2.600 sqm	45%
Automatic recharge-blade modulation-rain sensor-intelligent spiral-safety blade-rain sensor-emergency stop-safety handle					
Runner XK	20-2031-10	2x2,3Amp - Lithium	29 cm	3.000 sqm	45%
Automatic recharge-blade modulation-rain sensor-intelligent spiral-self programming-alarm-safety blade-rain sensor-emergency stop-safety handle					
Runner XH	20-2040-10	2x6Amp - Lithium	29 cm	3.500 sqm	45%
Automatic recharge-blade modulation-rain sensor-intelligent spiral-self programming-alarm-brushless engine-safety blade-rain sensor-emergency stop-safety handle					

Runner X available also with small battery, battery working time 40 min. instead of 3 h.
